

AG100 ProShrimp

AG Probiotics Products for Agriculture

- Probiotics are living microorganisms that can be formulated into many different types of products for different application.
- Evidence showing probiotics can maintain a strong immune system. Probiotics also produce antibacterial biochemical substances that control, destroy, or kill pathogenic microorganisms.

AG100 ProShrimp:

Specially formulated for intensive and semi-intensive shrimp farming. This probiotic powder blend is a cost-effective way to drive increasing yields.

Function:

- Reduces Disease & Pathogens.
- Enables Higher Growout Density.
- Increase Shrimp Size and Yield.

RECOMMENDED DOSING :

- Before adding shrimp: 400 grams / acre
- Maintenance Doses: 200 grams / acre every two week until harvest.
