

**AG600 Prolimmune**

**AG Probiotics Products for Agriculture**

- Probiotics are living microorganisms that can be formulated into many different types of products for different application.
- Evidence showing probiotics can maintain a strong immune system. Probiotics also produce antibacterial biochemical substances that control, destroy, or kill pathogenic microorganisms.

**AG600 Prolimmune**

Improves your shrimp’s immune system without using antibiotics or harmful chemicals. A blend of 10 research proven probiotics in a concentrated powder form.

**Function:**

- Improve disease resistance
- Reduce antibiotic costs
- Increase Harvest Yields

**RECOMMENDED DOSING :**

- For Preventative Use 8 grams per kg of feed.
- For At-Risk Shrimp 15 grams per kg of feed.
