

AG650 SuperProImmune

AG Probiotics Products for Agriculture

- Probiotics are living microorganisms that can be formulated into many different types of products for different application.
- Evidence showing probiotics can maintain a strong immune system. Probiotics also produce antibacterial biochemical substances that control, destroy, or kill pathogenic microorganisms.

AG650 SuperProImmune

Designed for the intensive shrimp farmer, SuperProImmune brings much of the same comprehensive formula of SuperProImmune in an even higher concentration.

Function:

- Improve disease resistance
- Reduce antibiotic costs
- Increase Harvest Yields

RECOMMENDED DOSING :

- For Preventative Use 3 grams per kg of feed
- For At-Risk Shrimp 5 grams per kg of feed
